

Authenticity, Guaranteed FROM JAPAN

TAMASHII symbolizes the Japanese tradition of craftsmanship.

We have dedicated heart and soul to creating products that embody this spirit of creation.

TAMASHII NATIONS designs, develops, and manages manufacturing from Japan to ensure quality.

Through collaborations with many top creators, TAMASHII NATIONS fuses artisanal techniques with cutting-edge manufacturing technologies to bring reality to life, for people around the world.

TAMASHII NATIONS QUALITY is more than a brand, it's proof of a spirit that connects Japanese craftsmanship to the rest of the world.

We at Bandai are dedicated to maintaining and exceeding the standards we have set for TAMASHII NATIONS QUALITY.

PLANNING in JAPAN

TAMASHII craftsmanship starts here. Each proposal begins with a multi-faceted analysis of the character's core attributes, the world marketplace, and the strategy for each of our brands. The project manager, along with marketing, R&D, and advertising staff, convenes a meeting to identify challenges and points of needing attention. When the product is approved, the specifications, required staffing, and technological feasibility studies are prepared, and development kicks off.

PROTOTYPE / SUPERVISION in JAPAN

The project manager and sculptor work closely to create a model of the product. A hand-sculpted model is scanned, the data is adjusted and output on a 3D printer, and the result further adjusted by hand. This fusion of analog and digital processes results in truly high-quality prototypes.

PRODUCTION

Zinc alloy ingots are melted down and injected into molds to create diecast metal parts. They are then carefully polished with metal files and sandpaper. Plastic parts are created by injection molding. Plastic pellets are melted and then injected into the molds to create sprues of parts in each color.

QUALITY MANAGEMENT in JAPAN

This process checks the durability of the joints and movable parts. Arms, legs, and other portions are placed in special machines that apply a set amount of weight to them. Of course they need to work well under normal conditions, but they are also designed to survive "hard play" of forces higher than they would encounter in normal use.

TAMASHII NATIONS HANDBOOK 2022

WINTER

Starting from September 2018,
THE PROOF OF GENUINE PRODUCT: TAMASHII NATIONS QUALITY SEAL
will be found on TAMASHII NATIONS products. (*please note that exception are exist)
